

## COVER PAGE

### Registration Information

Please provide us with the following information (please print)

Name: \_\_\_\_\_.

Organization: \_\_\_\_\_.

Job title: \_\_\_\_\_.

Email address: \_\_\_\_\_.

Telephone number: \_\_\_\_\_.

### Confidentiality and Use of Survey Information

Thank you for participating in the Pandemic Influenza Vaccine Prioritization Survey. Information you provide for this survey is confidential and will only be available to the UC Berkeley Center for Infectious Disease Preparedness (CIDP) and the California Department of Health Services, Immunization Branch (IZ) research investigators involved in the study.

The information you provide WILL NOT be used to assess individual preferences or knowledge. All individual data responses will be entered anonymously. The survey results will be aggregated and analyzed to inform the pandemic influenza vaccine prioritization process. The aggregate results of this survey may be disseminated in publications and presentations.

Please **SIGN AND DATE** below to indicate your compliance with the following statement.

***I have read and understood the confidentiality statement and agree to participate in this survey.***

Name: \_\_\_\_\_ Date: \_\_\_\_\_.

**Please press PLAY on the control panel to resume the presentation.**

## INTRODUCTION

The Pandemic Influenza Decision Analysis Scoring Tool (DAST) was developed to assist the California Department of Health Services (CDHS) with identifying and prioritizing target populations for pandemic influenza vaccine to achieve the State's goals of minimizing health consequences, social disruption, and economic consequences. This tool will evaluate target groups along competing criteria and assign a numerical score to each population group. At the end of this process, the DAST will produce a rank-ordered list of target groups prioritized for influenza vaccination that can be implemented within the State. This priority list along with recommendations for its implementation will be included in the California Pandemic Influenza Preparedness and Response Plan.

## Intervention Goals

The California Department of Health Services (CDHS) has identified three goals for a pandemic influenza vaccine intervention. These goals are the following:

- A. **Minimize health consequences:** The ability of the intervention to reduce the number of severe illnesses and deaths caused by pandemic influenza.
- B. **Minimize social disruption:** The ability of the intervention to reduce disruption in essential community services and to minimize social chaos and disorder caused by pandemic influenza.
- C. **Minimize economic consequences:** The ability of the intervention to reduce the extent of economic loss caused by disruption in essential financial services, as well as reductions in production and consumption of goods and services.

## Survey Overview

The survey questionnaire is divided into three sections:

**Section A.** This section will ask you to evaluate the relative importance of vaccination criteria based on their ability to achieve the intervention goals. The results from this section will determine how heavily each criterion is weighted in the final analysis.

**Section B.** This section will ask you to answer a series of questions for specific target groups based on the target groups' health characteristics and occupational roles. The results of this section will determine how well each target population meets the relevant vaccination criteria.

**Section C:** This section will ask you to evaluate the survey process and instrument. The results of this section will help us improve the survey for subsequent use as well as help analyze the results.

**Refer to the Reference Document, Page 1 to review the Survey Question Guidelines in the purple shaded box. When you have finished proceed to Section A of the survey.**

## SECTION A. RATING THE IMPORTANCE OF VACCINATION CRITERIA

This section asks you to evaluate the relative importance of vaccination criteria in their ability to achieve the intervention goals. The results from this section will determine how heavily each criterion is weighted in the final analysis.

### Vaccination Criteria

Please refer to [Reference Document Page 2, Table 1](#) and review the vaccination criteria categories and definitions shaded in blue.

**Please do not continue with the survey until you understand the terms and definitions for the seven vaccination criteria.**

PRIORITIZATION CRITERIA
1. Risk of complication
2. Risk of transmission
3. Risk of infection
4. Vaccine effectiveness
5. Provides DIRECT pandemic emergency response service
6. Provides SUPPORT pandemic emergency response service
7. Provides CRITICAL infrastructure service

**Rating Scale Exercise**

INSTRUCTIONS

We would like you to determine the **RELATIVE** importance of the seven criteria in deciding who will be prioritized for the vaccine. We will use this information to assign weights to the criteria. Criteria given a higher weight will have a larger impact on the ranking of priority groups.

**REFER TO**  
**Reference Document**  
**Page 2, Table 1**

**Q1:** Now, please RATE the importance of each criterion in determining which groups should be vaccinated in the early stages of the pandemic (1=least important and 7 =most important). If you feel that two criteria are equally important, assign them the same ranking and then continue on.

	<i>Least Important</i>						<i>Most important</i>
	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	<b>6</b>	<b>7</b>
Risk of complication	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Risk of transmission	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Risk of infection	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Vaccine effectiveness	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Provides DIRECT pandemic emergency response service	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Provides SUPPORT pandemic emergency response service	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Provides CRITICAL infrastructure service	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**You have now completed Section A. Please press PLAY on the control panel to resume the presentation.**

## SECTION B. ASSESSING POPULATION GROUPS ALONG CRITERIA

This section will ask you to answer a series of questions for specific target groups based on the target groups' health characteristics and occupational roles. The results of this section will determine how well each target population meets the relevant vaccination criteria.

### Target Group List

The target group list identifies those groups that will likely meet one or more of the vaccination criteria and therefore should receive priority for vaccine during the early stages of the pandemic. Please refer to **Reference Document, PART II. Target Group List, Pages 3-12** for the complete list of target groups. Part II also contains brief descriptions and sample populations of each group.

***Please do not continue with the survey until you are familiar with the list of target groups.***

## EPIDEMIOLOGIC CRITERIA: RESEARCH EVIDENCE

The epidemiologic criteria and determinants listed below will be based on current research evidence during interpandemic influenza (e.g. seasonal flu). If the epidemiology differs during a pandemic than interpandemic years, the prioritization model will incorporate these changes and update the priority list.

### Risk of Complication Criterion

#### CRITERION DEFINITION

The definition of “**risk of complication**” is the following: Once infected, the probability of developing severe illness and/or dying as a result of the disease.

This criterion is based on current research on the risk of complications from influenza illness that target groups face during interpandemic influenza (e.g. seasonal flu). **Reference Document, Page 13, Table 2** presents the target groups facing the greatest risk of complications from influenza. This research evidence will be incorporated into the prioritization process. Those with the greatest risks of complications will be assigned points for the “Risk of Complication” criterion.

### Risk of Transmission Criterion

#### CRITERION DEFINITION

The definition of “**risk of transmission**” is the following: Once infected the probability of transmitting the virus to a susceptible person at high risk of influenza complications.

#### DETERMINANTS

The determinants of “**risk of transmission**” are the following:

1. Duration of infectiousness; number of days a person sheds virus (*research evidence*)
2. Frequency, closeness, and duration of contact with susceptible populations at high risk for influenza complications (*Question #2*)

The “duration of infectiousness” determinant is based on current research on the periods of infectiousness that target groups face during interpandemic influenza (e.g. seasonal flu). **Reference Document, Page 14, Table 3** presents the target groups with the longest periods of infectiousness. This research evidence will be incorporated into the prioritization process. Those with long periods of infectiousness will be assigned points for the duration of infectiousness determinant.

### Vaccine Effectiveness Criterion

#### CRITERION DEFINITION

The definition of “**vaccine effectiveness**” is the following: Ability of vaccine to prevent illness and death from pandemic influenza by promoting an effective immune response.

This criterion is based on current research on vaccine efficacy that target groups face during interpandemic influenza (e.g. seasonal flu). **Reference Document, Page 16, Table 4** presents the target groups’ levels of vaccine efficacy. This research evidence will be incorporated into the prioritization process. Those target groups with the highest levels of vaccine efficacy will be assigned the most points for the “Vaccine Effectiveness” criterion.

## VACCINATION CRITERIA QUESTIONS

### INSTRUCTIONS

Please read the following criterion definitions and answer **all** of the questions to the best of your ability.

### QUESTION

**Q2.** Throughout the course of a “normal day,”<sup>1</sup> are persons within the target groups listed below likely to have:

(1) **Face-to-face contact** (*unprotected exposure ≤ 3 feet*)

AND

(2) One of the following types of exposures

(a) **Frequent contact** (*≥ 1 time per day*)

OR

(b) **Prolonged contact** (*≥ 10 minutes per exposure*)

with **persons at high risk of developing complications** (*severe illness and death*) if infected with influenza?

The table below lists the persons at high risk developing complications from influenza during inter-pandemic (seasonal flu) years. **You will need to use this information to answer Question #2.** This evidence is also included in the **Reference Document Page 13, Table 2.**

TABLE. RISK OF COMPLICATIONS FROM INFLUENZA

Health-Related Target Group	High Risk of Complications, Hospitalizations, and Deaths <sup>2</sup>
People with Chronic Medical Conditions, all ages	Yes
Pregnant Women, all ages	Yes
Infants and Toddlers, ages 6 – 23 months	Yes
Healthy Children, ages 2 – 4	Yes

<sup>1</sup> “Normal day” is defined as the typical daily activities that target group members are engaged in during a given day.

<sup>2</sup> SA, H., F. K, et al. (2005). Prevention and Control of Influenza: Recommendations of the Advisory Committee on Immunization Practices (ACIP).

**Q2.** Throughout the course of a “normal day,”<sup>3</sup> are persons within the target groups listed below likely to have:

(1) **Face-to-face contact** (*unprotected exposure ≤ 3 feet*)

**AND**

(2) **One of the following types of exposures**

(a) **Frequent contact** (*≥ 1 time per day*)

**OR**

(b) **Prolonged contact** (*≥ 10 minutes per exposure*)

**with persons at high risk of developing complications (severe illness and death) if infected with influenza?**

Target Group	Yes	No	Not Sure
<b>HEALTH-RELATED TARGET GROUPS</b>			
<b>People with Chronic Medical Conditions, all ages</b>			
People with Chronic Medical Conditions, ages 2-17	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People with Chronic Medical Conditions, ages 18 – 64	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**You have now completed Question #2. Please press PLAY on the control panel to resume the presentation.**

<sup>6</sup> “Normal” day is defined as the typical daily activities that target group members are engaged in during a given day.

## Risk of Infection Criterion

### CRITERION DEFINITION

The definition of “**risk of infection**” is the following: The probability of becoming infected through close and/or prolonged contact with potentially infectious persons.

### QUESTIONS

**Q3.**

Throughout the course of a “normal day,”<sup>7</sup> are potentially infectious persons (those with the long periods of infectiousness) likely to have:

(1) Face-to-face contact (unprotected exposure  $\leq 3$  feet)

AND

(2) One of the following types of exposures

(a) Frequent contact ( $\geq 1$  time per day)

OR

(b) Prolonged contact ( $\geq 10$  minutes per exposure)

with the target groups listed below?

The table below lists the persons at high risk developing complications from influenza during inter-pandemic (seasonal flu) years. You will need to use this information to answer Question #3. This evidence is also included in the Reference Document Page 14, Table 3.

TABLE. PERIODS OF INFECTIOUSNESS FOR INFLUENZA <sup>8</sup>

Target Group	Long Period of Infectiousness (8 days or more)
People with Chronic Medical Conditions, all ages	Yes
Infants and Toddlers, ages 6 – 23 months	Yes
Healthy Children, ages 2 – 4	Yes

<sup>7</sup> “Normal day” is defined as the typical daily activities that target group members are engaged in during a given day.

<sup>8</sup> SA, H., F. K., et al. (2005)

**Q3.**

Throughout the course of a “normal day,”<sup>9</sup> are ***potentially infectious persons*** (those with the long periods of infectiousness) likely to have:

(1) **Face-to-face contact** (unprotected exposure ≤ 3 feet)

AND

(2) One of the following types of exposures

(a) **Frequent contact** (≥ 1 time per day)

OR

(b) **Prolonged contact** (≥ 10 minutes per exposure)

with the target groups listed below?

Target Group	Yes	No	Not Sure
<b>People with Chronic Medical Conditions (all ages)</b>			
People with Chronic Medical Conditions, ages 2-17	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People with Chronic Medical Conditions, ages 18 – 64	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People with Chronic Medical Conditions, ages 65+	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Pregnant Women, all ages</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Infants and Toddlers, ages 6-23 months</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Household contacts<sup>10</sup> of Children &lt;6 months, all ages</b>			
Household Contacts of Children <6 months, ages 2-17	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Household Contacts of Children <6 months, ages 18-64	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Household Contacts of Children <6 months, ages 65+	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Household Contacts of Severely Immunocompromised Person, all ages</b>			
Household Contacts of Severely Immunocompromised Persons, ages 2-17	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Household Contacts of Severely Immunocompromised Persons, ages 18-64	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Household Contacts of Severely Immunocompromised Persons, ages 65+	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

<sup>9</sup> “Normal day” is defined as the typical daily activities that target group members are engaged in during a given day.

<sup>10</sup> Household contacts refer to the healthy individuals living in the household with a child <6 month or with a severely immunocompromised person.

**Q3. Continued (Question repeated)**

Throughout the course of a “normal workday,”<sup>11</sup> are potentially infectious persons (those with the long periods of infectiousness) likely to have:

(1) Face-to-face contact (unprotected exposure ≤ 3 feet)

**Q3. Continued (Question repeated)**

Throughout the course of a “normal day,”<sup>12</sup> are ***potentially infectious persons*** (*those with the long periods of infectiousness*) likely to have:

(1) **Face-to-face contact** (*unprotected exposure ≤ 3 feet*)

**AND**

(2) One of the following types of exposures

(a) **Frequent contact** (*≥ 1 time per day*)

**OR**

(b) **Prolonged contact** (*≥ 10 minutes per exposure*)

with the target groups listed below?

Target Group	Yes	No	Not Sure
<b>Other Healthy Populations</b>			
Healthy Children, ages 2-5	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Healthy Children ages 6-17	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Healthy Adults, ages 18-64	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**You have now completed Question #3. Please press PLAY on the control panel to resume the presentation.**

<sup>12</sup> “Normal day” is defined as the typical daily activities that target group members are engaged in during a given day.

**Provides DIRECT or SUPPORT Emergency Response Service Criteria**

**CRITERIA DEFINITIONS**

The definition of “**provides DIRECT service in pandemic emergency response**” is the following:  
 Provides DIRECT service essential to carrying out a pandemic emergency response.

The definition of “**provides SUPPORT service in pandemic emergency response**” is the following:  
 Provides SUPPORT service that is necessary for carrying out a pandemic emergency response.

**DETERMINANTS**

The determinants of “**provides DIRECT service in pandemic emergency response**” and “**provides SUPPORT service in pandemic emergency response**” are closely related. The table below summarizes these determinants as well as which survey question the determinants are linked to.

DETERMINANTS OF DIRECT AND SUPPORT EMERGENCY RESPONSE SERVICE

#	Direct service	Support Service	Related Survey Question
1	Directly provide services necessary to ensure pandemic influenza vaccine is <b>produced, distributed, disseminated, and administered</b> among population	Directly <b>SUPPORT</b> those who provide services necessary to ensure pandemic influenza vaccine is <b>produced, distributed, disseminated, and administered</b> among population	<b>Q4</b>
2	Provide <b>direct patient care and essential medical services</b> during an influenza pandemic	Directly <b>SUPPORT</b> those providing <b>direct patient care and essential medical services</b> by maintaining an operational medical care delivery system during an influenza pandemic	<b>Q5</b>
3	Directly provides <b>public health and/or front line emergency response services</b> during an influenza pandemic	Directly support those <b>providing public health and front line emergency response services</b> by maintaining an operational emergency response system during an influenza pandemic	<b>Q6</b>

# ?

## QUESTIONS

**Q4.** If a target group is **DIRECTLY** involved in the **production, distribution, dissemination, or administration of pandemic influenza vaccine**, please check the “Direct Role” box.

If a target group **SUPPORTS** the **production, distribution, dissemination, or administration of pandemic influenza vaccine**, please check the “Support Role” box.

If a target group **DOES NOT** perform either of these roles during an influenza pandemic, please check the “No Role” box.
